Normal Operations	Normal Operations	Normal Operations	Normal Operations

### Cal OES COASTAL REGION

#### **Railroad Derailment, Pajaro, Monterey County, SPILL: 18-3108**

On 05/14/18 at 1219 hours, the California State Warning Center (CSWC) received a report from Union Pacific Railroad (UPRR) that two locomotives derailed in the upright position in the Watsonville Railyard due to unknown causes.

- No hazardous materials were released and no injuries were reported.
- Rerailment was in progress.

#### **Railroad Derailment, Milpitas, Santa Clara County, SPILL: 18-3119**

On 05/14/18 at 1750 hours, the California State Warning Center (CSWC) received a report from Union Pacific Railroad (UPRR) that a single locomotive derailed upright on an industrial line due to an unknown cause.

- There is no impact to mainline train traffic.
- No hazardous materials were released and no injuries were reported.
- At the time of the report, it was unknown who would be completing rerailment operations.

### Cal OES INLAND REGION

- Nothing significant to report.

### Cal OES SOUTHERN REGION

- Nothing significant to report.

# **WEATHER SYNOPSIS BY REGION**

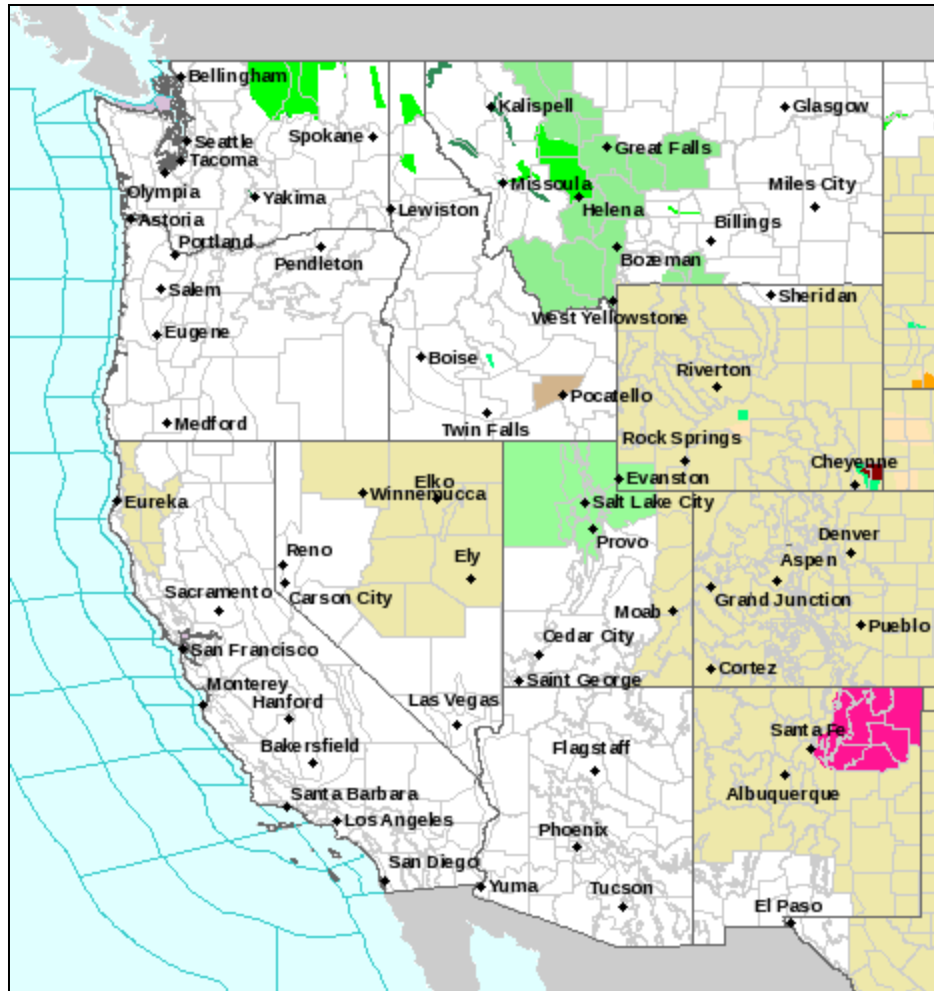

## **NORTHERN CALIFORNIA**

Unsettled weather pattern over Northern California for the next 7 days with a few weather systems affecting the region. Daily chance of some showers and isolated thunderstorms, mainly in the mountains today and Tuesday. Probably a bit more wide spread and numerous Wednesday and tapering off after that, but chances are not entirely going away over the mountains through the weekend. Temperatures will remain a bit above seasonable values all week. The warmest inland areas will be mostly low and mid 80s. Some areas with gusty afternoon W to S winds Tuesday and Wednesday.

## **SOUTHERN CALIFORNIA**

Low pressure over Nevada will sit and spin through Tuesday and then it will combine with another area of low pressure that will move inland into Central California from the Pacific Ocean Wednesday. This combined low will move slowly off to the east into the Great Basin and then be replaced by a third low that moves into Central California from the Pacific Ocean this weekend. These low pressure areas will allow isolated showers and thunderstorms to form over the Sierra each afternoon through this weekend. Westerly afternoon and evening winds of 15 to 25 mph with gusts to 40 mph will surface across the wind prone mountain and desert areas through this weekend. Temperatures will be a little below normal through this weekend, with mid 50s to mid 60s across the mountains and 70s to low 80s in the valleys.

# Cal OES LAW ENFORCEMENT MISSIONS

## Cal OES Law Missions

- **2018-LAW-46688, 05/11/18, 0657 hours:** The Air Force Rescue Coordination Center (AFRCC) advised of a possible ALNOT involving a Beechcraft Model 76, Tail# N803FC, with two souls on board scheduled to fly on 05/10/18, from Santee to Victorville and return to Gillespie Field in San Diego County. AFRCC advised ramp checks had been conducted with negative results. At 0723 hours, the Cal OES Law Enforcement Branch Duty Officer (LDO) requested Civil Air Patrol (CAP) be activated and AFRCC opened mission #18M0289A. At 0756 hours, LDO spoke to San Diego Sheriff's Department (SDSD), who confirmed they were assisting CAL FIRE with a fire that was believed to be from a small plane crash that occurred 05/10/18, in the area of Volcan Mountain. Based on the last known position of the ALNOT, it is suspected this may be the same plane which crashed last night. SDSD is on scene but cannot make access to the site for identification until the fire is stopped. LDO updated AFRCC. **Update: 05/11/18, 1720 hours,** SDSD advised ground teams made it to the suspected crash site but were unable to positively identify the plane or any victims due to access issues caused by the fire. SDSD advised the site has been secured and they will assist with Medical Examiner (ME) and NTSB investigators on 05/12/18. LDO updated AFRCC and requested CAP resources be released. **Update: 05/12/18, 1410 hours,** SDSD advised they are still unable to positively identify the plane or victims due to the current fire situation. SDSD is planning to respond and assist the ME and NTSB investigators in the early morning of 05/13/18. **Update: 05/13/18, 1943 hours,** SDSD advised they have secured the remains of three victims and have provided information to the NTSB for identification purposes of the plane. SDSD plans to extract the three victims by helicopter on Monday, 05/14/18, pending current weather restrictions. Positive identification of the victims and plane are still pending further investigation. **Mission Ongoing.**

## Emergency Management Assistance Compact

- **2018-Cal OES-46751:** The State of Hawaii requested one (1) Geothermal Subject Matter Expert (SME) from the California Department of Conservation, Division of Oil Gas & Geothermal Resources, to provide support to the volcanic activity occurring in Hawaii. The SME has industry and regulatory experience, as well as knowledge of geothermal wellhead construction, operations, processes, risk management, and mitigation. The SME arrived safely in Hawaii on 05/13/18, and is anticipated to return to California on 05/19/18.

# Cal OES MISSION TASKING

## Cal OES Missions

- **2018-IREOC-45244:** Caltrans to remove dead and dying trees along highways in Kern, Tulare, Fresno, Madera, Mariposa, Tuolumne, Calaveras, Butte, Plumas, Sierra, Shasta, and Lassen counties. (On Scene – Long-term assignment)
- **2017-SOC-44098:** CalRecycle Debris Management Team in Ventura County (Coordinating)
- **2017-SOC-43821:** DTSC to remove household hazardous waste from over 500 residential lots in Ventura County (On Scene)
- **2017-Inland-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene)
